## 1. Introduction and Aims

Ashington Town Council aims to promote and protect the quality of life and well-being of those who live in, work in, or visit the local area. To this end, the Council offers grants to local organisations based in Ashington to help them maintain and develop their services, facilities, and activities.

The Council is committed to supporting local community groups, sports clubs, and charitable organisations that provide direct benefit to Ashington residents.

### **3.2 Financial Reserves Policy**

The Council will not normally fund organisations holding more than 30% of their average annual running costs in unrestricted general reserves. Organisations with reserves between 20-30% must provide detailed justification for these levels.

All applicants must provide:

- A breakdown of all reserves by type and restriction status
- Explanation of the organisation's reserve policy and specific purposes for reserves held
- Calculation showing reserves as a percentage of average annual running costs over the previous two years
- Demonstration that the requested grant cannot be funded from existing reserves
- Evidence of consideration given to using reserves appropriately before seeking grant funding

Exceptional circumstances may be considered where higher reserves are justified by:

- Regulatory or legal requirements for specific reserve levels
- Major capital equipment replacement cycles requiring planned savings
- Seasonal funding patterns necessitating cash flow management
- Insurance or lease requirements for advance payments

Where reserves are not adequately explained or justified, the Council will assume that the applicant has sufficient funds to cover the expenditure from their own resources and that Town Council support is not necessary. The Council reserves the right to request further explanation of financial information, and applicants should be prepared to submit forecasts or cash flow projections if requested.
