

Green Doctors North East

Summer 2022

Welcome to our latest Newsletter. As you can see, we've had a name change! We're pleased to announce that our Green Doctor team now covers Sunderland, Gateshead, Newcastle and Northumberland so feel free to pass on our details to colleagues in these regions.

Please contact us using the details below to make a referral and check out our Facebook page for the latest Green Doctor news.

Home visits

Now that Covid restrictions have lifted, we're getting out and about doing lots of home visits. This means we can offer practical help like installing FREE energy saving measures, taking meter readings and looking at any billing issues, as well as giving energy advice.

If you'd prefer a telephone advice call we offer this too. Just make a referral using the details below and we'll book in a home visit or call.

Carbon monoxide awareness

This is the ideal time to check your carbon monoxide alarms are working, or install new ones if you need them.

Carbon monoxide (CO) is an odourless, colourless and tasteless gas which can leak from gas fires, ovens and even boilers. Symptoms of carbon monoxide poisoning include headaches, nausea, feeling tired or confused, in severe cases it can cause collapse, loss of consciousness, and even death.

We are offering FREE Energy Awareness workshops including carbon monoxide awareness. To book a workshop please contact us using the details below.

To book/refer a FREE telephone advice call, home visit or workshop:

Tel: 07515 327185 or 07976071227
