

AGENDA 19a, Enc xxxi) National Association of Local Councils (NALC) and Northumberland Association of Local Councils

NALC

Since 1947, the National Association of Local Councils (NALC) has been England's only recognised national membership organisation for community, neighbourhood, parish and town councils. They work with county associations to support, promote, improve and create sustainable councils.

10,000 parish and town councils in England represent 35 million people with 16 million electors, raising £700 million in precept and investing over £2 billion in communities. Some of the largest councils have a precept of over £1 million a year. Around 100,000 councillors spend over 14 million hours a year serving those councils to help change their community. Over 300 new councils have been created in rural and urban areas in the last decade.

They believe these vibrant and dynamic parish and town councils are at the centre of community effort, delivering services and giving their communities a democratic voice.

Ashington Town Council is a member council. All Councillor are encouraged to create their own member log in where they can access events, resources and support.
